SIGILLATRICE AUTOMATICA A HOT MELT HOT MELT AUTOMATIC SEALING MACHINE SCELLEUSE AUTOMATIQUE À HOT MELT HOT MELT AUTOMATISCHE SCHLIESSMASCHINE CERRADORA DE CAJAS AUTOMATICA HOT MELT

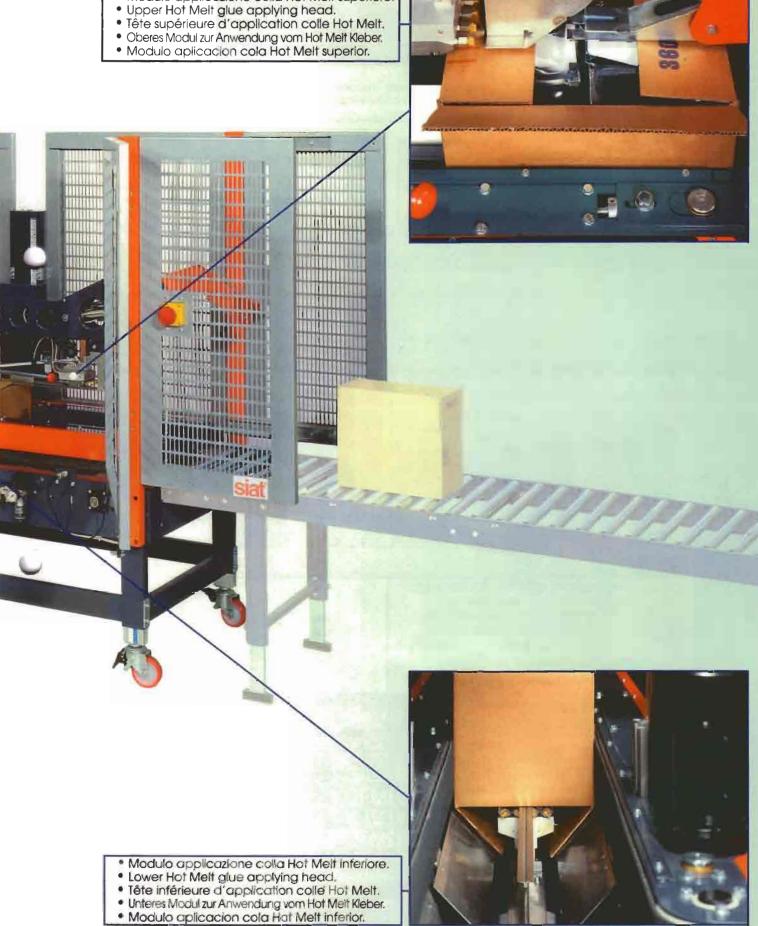

HM11-T/B sigillatrice automatica a Hot Melt - Hot Melt automatic sealing machine - Scelleuse automa

ique à Hot Melt - Hot Melt automatische Schliessmaschine - Cerradora de cajas automatica Hot Melt

CARATTERISTICHE TECNICHE

Sigillatrice automatica con adesivo Hot-Melt a dimensionamento manuale.

Incolla contemporaneamente le falde superiori ed inferiori di scatole in cartone.

12 differenti programmi di applicazione consentono la perfetta sigillatura dei più svariati formati di scatole.

Progettata per un facile utilizzo ed un semplice inserimento in linee automatiche e semiautomatiche di confezionamento; rispetta ampliamente le normative CE.

Risponde alle più moderne esigenze di mercato in materia di sigillatura scatole.

ww.getpacked.com.au **SPECIFICATIONS**

Automatic Hot Melt glueing machine, manually adjustable to the carton dimensions. It glues simultaneously the top and bottom flaps of uniform size cartons.

12 different glueing programs allow a perfect sealing of a wide range of cardboard boxes.

It has been designed for an easy handling and use in automatic and semi-automatic packaging lines, and according the CE safety regulations.

It meets the most modern market requirements about boxes sealing.

CARACTERISTIQUES TECHNIQUES

Scelleuse automatique par colle Hot Melt à réglage manuel.

Elle colle simultanement les rabats supérieurs et inférieurs de boîtes en carton. 12 différents programmes d'application de la colle permettent la fermeture de plusieurs formats de cartons.

Projetée pour un emploi facile et un usage simple dans lignes de conditionnement, et selon les normes CE.

Elle satisfaite aux plus modernes exigences de fermeture des boîtes en carton.

TECHNISCHE EIGENSCHAFTEN

Automatische Hot-Melt Schliessmaschine mit manueller Formateinstellung.

Sie klebt gleichzeitig die oberen und unteren Falten der Schachteln. verschiedene Anwendungsprogramme erlauben den einwandfreien Verschluss der verschiedenartigen Kartonsformaten. Sie ist zu einem leichten Verbrauch und einfacher Einfügung in Halbund Vollautomatischen Verpackungslinien entworfen worden und entspricht ganz der EEG-Normen.

Die Maschine geht auf die neuesten Forderungen des Markets bez. auf den Kartonverschluss ein.

CARACTERISTICAS TECNICAS

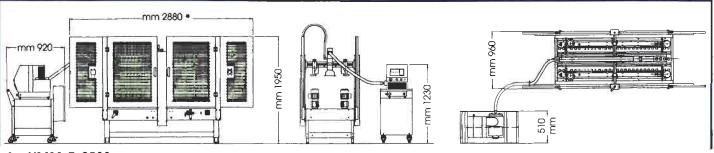

Cerradora automatica con cola Hot Melt, de regulacion manual. Encola contemporaneamente la parte superior e inferior de la

12 programas diferentes de aplicacion permiten un perfecto cierre de una amplia gama de cajas.

Diseñada para una utilizacion facil y una simple colocacion e; linea automatica y semiautomatica de produccion: cumple là normativa CE.

Responde a la mas moderna exigencia de mercado en el sistema de cerrar cajas.
